Lending company	Country	Currency of payments that are due to Mintos and investors	Pending for 8 - 14 days	Pending for 14+ days	Total amount of pending payments repaid in the reporting period	Current outstanding investments on Mintos + total in pending payments (EUR)	Pending payments % in the current outstanding investments + total in pending payments	% of current loans in the lending company's portfolio on Mintos	Comments about pending payments
ExpressCredit	Namibia	EUR	€4,218	€962,101	-	€1,130,026	85.5%	24.10%	As previously agreed between the parties, the lending company repays according to a specific repayment schedule in the amount of ~€160k per month. The next payment is scheduled for the end of October. Interest on pending payments will be covered in full.  Pending payments are growing due to the long transition process to Notes which is caused by local currency control restrictions and specific conditions related to that. ExpressCredit and Mintos are still working on a solution to allow the company to transition to Notes. Also the lending company is working on attracting additional funds. As soon as the company manages to find alternative funding or is able to transition to the Notes setup, pending payments will decrease faster.
GFM	Kazakhstan	EUR	€15,709	€49,445	-	€957,250	6.8%	46.50%	During October 22-27 we received KZT equivalent of €83k that were distributed to the investors. GFM will be making daily transfers in the amount of KZT 20-30m (the max daily limit set by the lending company's commercial bank). Barring unforeseen events, the current pending payments should be covered by mid-November. Interest on pending payments will be covered in full.

Mikro Kapital	Uzbekistan	EUR	€169,646	-	-	€2,838,800	6.0%	87.30%	The delay is of a technical nature. Mintos bank account details have changed, hence the cooperation agreement with the lending company needs to be amended and circulated. We expect pending payments to be covered next week.
